## Two Injured In Car Crash; Six Wrecks Reported

### Tanker Hits Three Cars On Grade; Woman May Lose Leg

Two people were seriously injured in an unusual accident near Cisco and a number of others suffered lesser hurts as the result of a series of motor vehicle accidents during the weekend snow storm in this area.

Six accidents were reported to the highway patrol and it was estimated that perhaps five times that number, involving only minor damage, occurred in the summit area.

Mrs. Hazel Hughes, 26, had both bones in her lower leg broken and may lose the member, and her husband, Douglas L. Hughes, 22, Campbell, Calif., also had a broken leg when their car was struck by a large tank truck and trailer operated by Harold Diddock, 32, Sacramento, the patrol reported.

The Hughes car ran off the road and stuck in a snow bank. Mrs. Hughes got out to direct traffic while her husband attempted to shovel the car out. The tank truck came around a curve, skidded, hit two other cars, Patrolman Roy Stallard reported, and then smashed into the Hughes car. Mr. and Mrs. Hughes were standing in front of their car and it was knocked into them, causing the injuries.

Diddock was cited by Patrolman Stallard for driving without due caution.

A car operated by Hiram M. Jensen, 57, Eureka, and a pickup truck, the driver of which was not identified, were also hit by the tanker, owned by the Rembley Company of Fresno, Stallard said.

## BURNING PERMITS WILL BE NEEDED AFTER SATURDAY

Seasonal burning regulations in the Truckee district of Tahoe National Forest become effective April 15, according to District Ranger E. E. Boehm. The law requires a written permit for burning outdoors, even on one's own property, until December 1. Permit must also be obtained for the use of explosives.

Those using incinerators for burning must first have them inspected and obtain a permit.

Residents of the Lake Tahoe area can obtain permits from Clarence S. Beavers, forest service patrolman at Tahoe Public Camp, or by telephoning Tahoe City 360. Those in the Tahoe City Fire District must get permits from their local fire chief. Residents of the Truckee fire district can get permits from Fire Chief N. F. Dolley or from the local ranger station.

Strict enforcement of burning regulations will be adhered to, warns W. F. Curran, fire control assistant, and violators will receive citations. In case of doubt concerning the regulations, contact the ranger station here.

## Sportsmen Will Elect Officers, Discuss Future Program At Next Tuesday's Meet

New officers will be elected by the Truckee Outdoor Sportsmen at the annual meeting to be held Tuesday, April 18, at Capitol Hall, H. H. Hodson, president, announces.

Aside from the election of officers, other important business is scheduled for decision. Included in the program will be a plan to secure from the county the local district's share of the fine money collected for local violations. This money, if obtained, will be used for fish propagation purposes and stream improvements. Supervisor H. G. Loehr said he would lend all possible aid to the local sportsmen

in obtaining the money. The local sportsmen are also considering a resolution asking that the state fish and game commission be reorganized to provide for seven elected directors to represent seven districts of the state, instead of the current system of five appointees. Many sportsmen hold this action would place the commission in closer contact with the sportsmen and provide for better hunting and fishing conditions.

All members and prospective members of the club are asked to attend the meeting to discuss the coming year's program of activities.

Following the meeting, Hodson said, refreshments will be served.

## Kin Of Donner Hero Succumbs

TAHOE VISTA—Funeral services were held Monday afternoon at 1:30 o'clock at the Tredway Mortuary in Napa for George H. Tucker, 83, father of Mrs. Alice Sorenson of Tahoe Vista and a grandson of the late Resin P. Tucker, early Californian who headed the second relief party to rescue the ill-fated emigrants of the famous Donner Party in 1847.

Tucker died at his home at Tahoe Vista Saturday morning at 8:45 o'clock following an illness of three weeks. Had he lived until June 6, he and his surviving wife, May, would have observed their 60th wedding anniversary.

The deceased was born in Calistoga, Napa County, April 22, 1868, and was the son of the late Mr. and Mrs. George H. Tucker. He spent his entire life in California and during recent years he and his wife had made their home at Tahoe Vista, Lake Tahoe, near the home of their son in law and daughter, Mr. and Mrs. Andy Sorenson.

There are seven surviving children, Jesse Tucker of Napa, Edna Palmer of Paradise, Wilford Tucker of Hayward, Edna Pluth of Napa, Alice Sorenson of Tahoe Vista, Ralph Tucker of San Carlos and Erwin Tucker of San Mateo. There are 10 grandchildren and 12 great grandchildren.

So many friends came to pay final tribute to the deceased that the mortuary could not accommodate them all.

The sympathy of the entire community is extended to the surviving members of the widely known family.

## Rotary, Ladies Hear Talk on Joseph Stalin

The Rotary Club ladies night was held at Donner Summit Lodge Monday night.

Program chairman Charles B. Cross introduced Captain Henry Nau of Mather Field, who spoke on the topic of "Joseph Stalin." The captain's talk was extremely interesting. He took Stalin from a small boy into manhood and behind the Iron Curtain; delved into the nature of the man and his associates and touched on the Russian dictators first contacts with Marxism.

President John Ciardella opened the meeting but surrendered the gavel to the past presidents, who took over his duties. Visitors were Messrs. and Mesdames N. F. Dolley, Ray Scott, Nace Firpo and Steve Cozzi.

Ten members of the club have signed up for the flight to Berkeley on May 24.

## Sun Beams by Walter M. Barrett

Cancer, and all that dread name implies, is a personal matter and not one which we can connect with some remote possibility. Its cause and cure are still problems which beset the most eminent medical authorities but progress is being made to bring it under complete control. This progress can continue only with the help of generous contributions from individuals and organizations and at the present time a concerted drive is being made nationally to raise funds for the American Cancer Society. Truckee and the surrounding area has been asked to do its share and we are sure that once again we shall not be found lagging. The funds raised are not for some foreign relief or isolated cause but will go toward a fight which effects each and every one of us as individuals. Your donation will aid materially to give all you can afford—now. This is not charity, it is in an insurance for you and your loved ones.

## Osburn To Open Garage Here As Deal Completed

### Expects to Begin Work To Finish Structure In Near Future

Clarence Osburn this week announced that he has completed arrangements with the Capital National Bank at Sacramento for the purchase of the former Brunk garage property on West Main Street, adjoining the Cottage Hotel.

The new owner, who also holds a lease on Osburn's Associated Service station, is planning immediate completion of the garage which was abandoned by Charles I. Brunk, the original owner, before it was entirely complete. Osburn contemplates improvements which will put the building in shape for all general garage repair work, storage, parts and accessories.

In addition, he said, he plans to take over a new car agency and will feature a line of new and used vehicles.

The building is now partly occupied by Cook's Plumbing shop and store which is expected to remain under the new owner. A complete shop, with all the latest garage equipment, is among the improvements planned by Osburn.

The building was erected two years ago and is of concrete and steel construction and originally cost upward of \$60,000 to build, Brunk said before he left here for Oregon.

Osburn was in Sacramento yesterday conferring with agencies and others relative to the establishment of a dealership here.

He plans to be in the new location within the near future, the construction work and other details depending upon the weather.

## Chamber Secures Extension Local Census Boundary

### Engle Intervenes to Have U. S. Tally Reflect Recent Growth

Through the efforts of the Truckee Chamber of Commerce and Representative Clair Engle, the boundaries of Truckee for census taking purposes will be extended to include the Gateway and Meadow Park residential section, Harold Berliner, district census supervisor, has been advised.

As originally planned, the Truckee limits would be fixed at the roundhouse on the east and McIver's ranch on the west. Berliner's request that the area be enlarged was at first denied by the geographical division of the census bureau and Earl Stice, president of the chamber, requested Engle to confer with Washington officials.

Local officials pointed out that in further determination for civic improvements, the figures should include all residential area as well as the main section of the town. In his reply to Stice, Engle said in part:

"The director or census has agreed to give special consideration to Truckee although a final decision regarding the boundary lines will not be made until the enumeration is completed."

He added that after the census is completed, the figures will be compiled in Washington and maps studied to determine the area involved.

"The census director has assured me that if possible, they will have the census reflect the expanded area of Truckee," Engle wrote.

Charles Bannon, local crew chief, has also been active in attempting to have the area expanded to give a true picture of local population.

## George Fraley Expires At Bay

SODA SPRINGS—Friends and neighbors of George Fraley, 66, of Soda Springs were saddened to learn of his death at St. Luke's Hospital in San Francisco on Sunday, April 9.

Fraley formerly operated the Soda Springs Grocery and service station here. Last fall he leased this property to Arthur and Frances Couillard, who are now operating it. In 1925 Fraley purchased a quarter section of land at Soda Springs and in recent years had been responsible for the development of much of his holdings into home and business sites.

Fraley is survived by a nephew and niece in Haven, Kansas, and a nephew living in San Francisco. He was a member of the Truckee Rotary Club and active in civic affairs in the Donner Summit area.

For many years he was employed in the construction department of the Western Union Telegraph Company but had retired some time before his death. He had made his home at Soda Springs since 1939.

Services will be conducted from the W. C. Laswell Mortuary on Mission Street in San Francisco on Thursday, April 13, at 11 a.m. Interment will be in an Oakland cemetery. Pall bearers are Arthur Couillard, James Sherritt, Al Ledgerwood, William Gray, Felix Moriano and Ray McCarty, all residents and home owners in the Soda Springs area.

whom we have been associated for the past several years leaves us no alternative for it is sadly uppermost in our minds. George, affectionately known in the Soda Springs area as "The Mayor", a title which was bestowed on him for his long residence. The property which included the old Fox Farm, now Donner Summit Lodge and extended up to Beacon Hill Lodge, on both sides of the road, was purchased by George. Since that time George lived to see many residents and businesses established on the property he had gambled on many years ago. A quiet man, he entered into civic affairs without fanfare and worked for the good of the community he helped establish. For the past two years he had failed greatly. An operation two weeks ago revealed his ailment and his death in a San Francisco hospital on Easter Sunday came as no great surprise to those who had visited him. That blue can you see on counters—the one embellished with a gauntlet hand that holds a red sword and the words "Strike Back"—should be filled to the brim by those who come in contact with the murderous disease, for it is only through continuous research that a way can be found to control the insidious serpent that at this time cannot be con-

trolled. Many of George's friends have contributed to that fund rather than send flowers for the quiet funeral in San Francisco. We have such a container on our counter and it is quite impressive to see a friend walk in and without a word contribute a sizeable sum to the murderer that killed their very good friend.

The tenth annual Easter breakfast for the Soda Springs and Summit youngsters was held at the Soda Springs Hotel Sunday morning on a day that burned brightly for the occasion after an unprecedented snowfall of four feet. Thirty five Easter clad youngsters attended. Peg Travis, who did herself proud on the dining room appointments, had the tables placed in an "E" shape for Easter. Candy filled Easter baskets were the place cards for the kids who ranged in age from one to 14. Live bunnies were the prizes for the Easter egg hunt which was conducted in the hotel. Afterward the skiing element of the gang took to the Soda Springs Ski Hill for the annual Easter race, with Starr Walton and Larry Cartmill carrying off the choicest of live bunnies as first prize winners.

Betty Horak of Donner Summit Lodge has gone to the valley to await the new little Horak. Tony Donadio awaits the healing of a very bad throat so that he may have a tonsil operation shortly. Donna Mink Warnke returns to the Donner desk after her recent honeymoon.

The thinning out of cars on weekends indicates the end of another ski season, although there is enough snow at present to prolong skiing until June for the more avid. As the hot sun of the last few days melts the heavy winter residue we again start out on our pet spring grievance—the filth and debris that the sun is uncovering, a winter's accumulation left by our visitors. Same old stuff—beer cans and bottles, broken ski poles, banana and orange peels, scattered bits of clothing, milk bottles, pasteboard boxes with dirty remnants of lunches, ad infinitum.

It seems funny for us to receive the angling licenses that we are about to put on sale for the opening of fishing season for we cannot yet see out of our second story kitchen windows.

Welcome guests this past week were largely school teachers. Jane Vinson, teaching at Santa Maria, visited her parents, the Milton Hogles. Portia Wagenet of Oakland spent her Easter vacation photographing the unusual snow fall from the windows of her Castle Creek cabin. Portia had as her guest Ruth Melnicos, both teachers in Oakland. Irma Ledgerwood from the Richmond school district spent a couple of days at her little redwood pill box opposite Pratt's Garage. Lucky indeed are Jane, Portia and Ruth—all Europe bound this summer.

Little Smiley Tschopp's smiling face can be seen from all the big metropolitan newspapers this past week as she continues to "break records" in her racing.

## TIME-LY TALES

Switzerland has been famous for its watches since the 16th century. But nobody is quite sure how the industry started. The most generally accepted story concerns Charles Cusin, a watch and clock maker, who came to Geneva in 1574 with a horse as his only possession. Some say he fled France because he had stolen the horse. Others claim it was due to religious persecution. Nevertheless, it was Cusin who formed the nucleus of a craft that is world-renowned for its products.

### Driver Escapes Injury In Accident at Lake

John D. Stanton, 29, San Francisco, escaped serious injury on Sunday when his car rolled 150 feet down an embankment near Crystal Bay, Washoe County sheriff's deputies, reveal.

The accident occurred on the Lake Tahoe shoreline highway when Stanton lost control of the vehicle. Damage to the car was estimated at \$500.

The most winding street in the world is one block of San Francisco's Lombard Street, with eight twists and turns between intersections.

### HEALTH OFFICIALS URGE CHECK-UP OF SEPTIC TANKS

AUBURN—The Placer County Health Department almost daily receives calls from people complaints of the odor of someone's sewage.

"Whew! Sewage!" are common words on warm spring days and are voiced in louder tones when ever warmer days arrive.

Director Saul Ruby says that during the winter, septic tanks and cesspools become filled and the leach lines get saturated from excessive winter rain and runoff—particularly those systems which are inadequate for the home they serve. Most of the trouble and odor comes from the drain line as well as an improperly covered cesspool or septic tank. Unless a septic tank is sealed from the outside air, it does not function as a true septic tank.

Chief Sanitarian James Wheat adds that when you can say "Whew! Sewage!", follow your nose until you discover the condition and, if it is your own sewage system, check it to see if you have an adequate tank for your needs and a leach line that properly cares for the effluent. If you haven't, please repair it, or, if it is a negligent neighbor, report it to the health department.

The areas where there is excessive surface water runoff that flows to the many small creeks in ravines, sewage effluent from septic tanks or cesspools is a potential health hazard.

The health department provides pamphlets and information on home sewage disposal free of charge. Do not allow your sewage to overflow the ground and become obnoxious to you or to your neighbor.

No college football stadium in the country could seat all the owners of Standard of California.

With 97,000 individual stockholders, it's one of the most widely owned companies in the West... and more than 70% of these people are small stockholders with less than 100 shares.

Among the large stockholders, you'll find literally hundreds of companies and organizations which work for you or benefit you every day—hospitals, universities, museums, churches, insurance companies, YMCA groups, research laboratories. And, of course, thousands of our employees are also owners. Standard of California profits, therefore, are divided among a tremendous number of people.

You share, too. Just since the war we've invested more than \$500,000,000 in oil wells, refinery units, pipelines, tankers, distribution plants and marketing outlets... facilities to help us meet our responsibilities to serve the growing West.

### BRIEFLY NOTED

—by Joy Sowerwine, Ace Phipps, Ray Dixon

Over the Easter holidays, Judith Giovannoni took an airplane ride to Oakland. Stefanie Firpo also went to Oakland by car.

First graders are going to start a drug store and a variety store for their community studies.

This week the girls working in the cafeteria are Irene Golcoa, Ginger Reynolds and Sharon Pace. Marie and Margie Osburn went to the Grand Canyon, Boulder Dam and Salt Lake City over the

Easter vacation. David Germain went to Reno Sunday for the Easter egg hunt and to Idlewild Park. Joan Ward was in Reno Friday and Saturday. Marilyn Shafer went out to the country all day Sunday and took pictures of the scenery. Joy Sowerwine went to Reno several days last week.

### EASTER VACATION

—by Ernest Towler Jr.

The Truckee Elementary School pupils and teachers enjoyed a wonderful Easter vacation last week. This vacation started on March 31 and ended April 9. All were very happy when the vacation started, although some—but very few—wanted to stay in

school. When school started again, they were all prepared for school work. Personally, I wish we had more vacations like this.

### KNOW YOUR NEIGHBOR

—by Marilyn Shafer

Miss Joan Ward was born on October 1, 1935 in Oakland, Calif. She is 14 years old and lives at Floriston. When Joan grows up she wants to be a singer or an artist. Her favorite hobby is horse back riding and her favorite sport is bronco riding. She has a very wonderful voice. Her favorite songs are "I'll Always be in Love With You" and "Something to Remember You By."

### YOU KNOW IT'S SPRING

—by Roberta Peden

When trees begin to bloom again, And robins begin to sing, And flowers begin to bud again, Then you know it's Spring. When ducks begin to quack again Down by the old mill stream And woodpeckers begin to peck again, Then you know it's Spring. When bees begin to buzz again, And flies begin to swing and sway Then you'll surely know Spring has really come to stay.

### MEXICAN MARKETS

—by Todd McGee

Most of the markets in Mexico are open air markets. Most of the things for sale are vegetables, fruits and nuts; bowls and baskets. In Mexico they have lower prices than here. Most of the sellers are Indians.

### Claude Herrold Feted For Long CAA Service

Claude F. Herrold, maintenance technician in charge of the facilities division of the Civil Aeronautics Administration on Donner Summit, was honored recently at a ceremony held at the Sixth Regional headquarters of the CAA in Los Angeles.

## EL DORADO BOARD TO RECONSIDER CLOSING OF STREET

The El Dorado County board of supervisors will reconsider its action authorizing abandonment of a portion of San Jose Avenue in Al Tahoe townsite, Lake Tahoe, at its April 20 meeting.

The board several weeks ago granted a petition to abandon the street, filed in behalf of Frank Globin. Subsequently several other property owners in the tract filed suit to review the matter and for damages.

Since the original action, Supervisor Carl Niguel has died, and Eugene Chappie has been appointed by Governor Warren to replace him. The original vote to abandon the street was 3 to 2.

## North Tahoe

by T. BURROUGHS

At the protest meeting of the North Tahoe Public Utility District held at the Carpenters' Hall

last Saturday night a surprisingly large turnout, in spite of adverse weather conditions, contributed to a satisfactory outcome. There are 2565 lots represented in the district with a less than 10 per cent

protest remaining in the hands of the attorney at the close of the meeting. Many letters of protest had been received and some traveled a distance of 200 miles through the storm to be present after sending in letters. After hearing explanations, which cleared up some misunderstandings, most protests were withdrawn.

Bids were opened prior to the meeting and found to be lower than anticipated, at least five per cent lower than the engineers' estimate. This will reflect favorably in lowered assessments on the Improvement Bonds Issue for laterals and gathering system to the trunk line. The NTPUD board and manager are well pleased with the fine cooperation shown by residents during the hearing. A letter of fuller explanation, which is expected to clear up any confusion in regards to assessments on properties benefitting through the sewage system, is to be sent out to property owners within the near future. Bid has not been awarded. Attorney Wilson is instructed by the board to draw up papers for completion of contract signature. Work is to begin within ten days after the

contract is signed.

Ed and Mary Starr came up recently to be with Alice Sorensen and were with her when her father, George Henry Tucker, passed away Saturday. Alice wishes to thank all of those who helped to make the ordeal a little easier.

Fritzie Porath and son visited in the bay area last week, arriving back home in time for Easter with a lot of nice Easter lilies and Fritzie's mother, who will visit with the children for a while.

Our adult classes in English are over. The 15 lesson course was completed before Easter. Those who followed through were benefited and we look forward to the Fall semester with more classes under the direction of Mrs. D. C. Barnett.

Mr. and Mrs. Douglas Free will have two new cottages for this coming season. One will have three rooms and bath and one two rooms with bath. Doug and Addie picked up a lot of good ideas to incorporate into these new units during their travels during the winter months.
